Jim Mueller, Ph.D, of Adventus Americas <http://www.adventusgroup.com/index.shtml>, will give a "brown bag" presentation on sediment remediation in room A/B from noon - 1:00 PM on November 2, 2006. Bring your lunch and join us if the topic is of interest to you.

Adventus specialized in various forms of biological remediation technologies and promotes a couple of products designed for sediment remediation. Made me curious, so I took them up on their offer to do a presentation.
